

3rd Annual Faculty Development Course

Sponsored by the AOCCO-HNS

Saturday and Sunday, February 6-7, 2010

Program Description

As Program Directors, you are called upon to be skilled in a great number of different areas. Residency training prepares us to be knowledgeable and skillful at procedures, good communicators, and effective at multi-tasking. Rarely, however, does it prepare us to be educators and program administrators.

Faculty development is a term used to describe growth as educators. The goal of this course is to provide a guide for Program Directors to advance their skills as educators and program administrators.
